

# MIGRATION TO MAPINFO VERSION 10

DURATION: 1 DAY

PREREQUISITES: WORKING KNOWLEDGE OF MAPINFO PROFESSIONAL

## Course Overview

This hands-on training course is designed to ensure you continue to get the maximum value from your investment. Let our experts and professional training help you use the full potential of MapInfo Professional version 10.

MapInfo Professional is a powerful Microsoft Windows based mapping application that enables business analysts and GIS professionals to visualise the relationships between data and geography. Aimed at the day-to-day user, this course highlights the key enhancements within MapInfo Professional version 10, so that you can be confident undertaking (and now improving) your spatial analytics.

The course is aimed at existing users who are looking to upgrade to version 10 of MapInfo Professional. As such delegates will require a sound working knowledge of a previous version of MapInfo Professional to attend this course.

## Course Content by Session (09:15 – 17:00):

### Welcome to Dotted Eyes

A brief introductory module:

- Course Overview
- Course Resources & Amenities
- About Dotted Eyes

### Understand the new and improved Interface

By the end of this session you will be able to:

- Dock the toolbars along all four sides of your map window
- Understand the new icons and how to access your favourite ones
- Adjust software settings such as directory preferences, default coordinate projections, enhanced rendering and saving themes

### Utilise the redesigned 'Layer Control'

By the end of this session you will be able to:

- Access all the options within Layer Control, including, making layers visible, editable, selectable and labelling
- Switch between map windows seamlessly

- Group layers together
- Drag and drop layers between map windows
- Apply changes to multiple layers at once
- Apply changes to layers from different maps
- Set styles for new objects using layer control
- Preview your changes before committing the changes

### Advanced object editing using MapCAD

By the end of this session you will be able to:

- Install the MapCAD toolbars
- Run object menu items using icons from the MapCAD toolbar
- Undertake some of the core object editing functions available within the MapCAD suite

### Advanced map output

By the end of this session you will be able to:

- Generate and use dynamic scale bars
- Create layered PDF files
- Use 'Anti-Aliasing' to smooth labels and lines/borders in your map window
- Utilise vector translucency options
- Create your own custom colours
- Save thematic map styling to your MapInfo tables

## Training Facilities

Our custom built training suite at Hanbury Court in North Worcestershire provides purpose built facilities for up to 10 delegates. Each delegate has the use of an up to date individual computer with TFT screen and the latest edition of the relevant software.

**Disabled access** - There is full disabled access to the building with dropped kerbs offering easy access. All training is conducted on the ground floor where a dedicated disabled washroom is also situated for your convenience. We are especially keen to welcome disabled guests and make their visit as comfortable as possible.

**Car parking** - There is free car parking on site.

**Dietary requirements** - All courses include lunch as well as mid morning and afternoon refreshments. We are happy to cater for vegetarians and those with other dietary requirements, providing we have advance notification.

**Opening hours** - Access to the building is available from 8:15am to 5:45pm on training days.

**Internet access** - Delegates can use the internet or check webmail on a dedicated machine in the Dotted Eyes reception area.

**Taxis** - Dotted Eyes staff are happy to help arrange a taxi for your return journey to your hotel or the train station if required.

## Certification

Dotted Eyes public courses are accredited by the Association for Geographic Information (AGI) and contribute toward achieving Chartered Geographer status. Delegates who attend are therefore eligible to receive CPD points towards their Continual Professional Development. A certificate is provided to each delegate upon completion of the course.

MapInfo Professional – Public Introduction Course– 6 CPD Points  
MapInfo Professional – Public Advanced Course– 7 CPD Points  
MapInfo Professional – Public Refresher Course – 3 CPD Points  
Vertical Mapper – Public Course - 4 CPD Points  
FME – Public Introduction Course – 6 CPD Points  
Addressing PAI with ShiftWiz – 3 CPD Points  
Processing OS MasterMap with InterpOSe – 3 CPD Points

If you require a bespoke course especially to suit your organisation's requirements we can also apply to have your customised training materials accredited by the AGI.

**Chartered Geographer** - CPD Points - In order to meet the requirements laid down by the Royal Geographical Society - Institute of British Geographers (RGS-IBG), a minimum of 35 CPD hours (known as points) must be collected each year to gain and maintain Chartered Geographer (GIS) status. Of these, 20 hours should be sourced from external training/development, and the remaining 15 hours from internal training and development. Although these hours can be made up of any number of different activities, the RGS-IBG and AGI insist that annual CPD submissions are both balanced and relevant in their make-up.

## Bespoke Training

In addition to Dotted Eyes public training course offerings we also offer you the flexibility to tell us exactly how you would like to be trained! We'll customise a course based upon your unique requirements. For example we could dedicate a course to staff from your organisation, condense/extend the course content, customise the course to use your own data or even deliver the course material on a one-to-one basis... The choice is yours!

## About Dotted Eyes

Dotted Eyes is a GIS solution provider. Our mission is to help organisations use GIS to facilitate achievement of their wider objectives.

Our modular portfolio consists of GIS products and training/consultancy services that have been carefully chosen or developed in-house to meet a wide range of client requirements. Whether a client is a SME, a multi-national enterprise, a public sector body or a not-for-profit organisation, we are confident we can build a competitive solution for their needs.

We can provide a wide range of software and digital maps from Partners e.g. Pitney Bowes Business Insight, Ordnance Survey, Safe Software and NAVTEQ, in addition to our own software and services.
